

BEGINNER BAG

In this beginner bag we have a 7 iron. This is a mid iron from a set of normally 9 irons (3 to Sand Wedge)

By learning how to use the 7 iron you will get a good understanding of how the rest of the irons function. When we play the Academy course you will need it to hit the ball as far as possible with this club whilst learning to play.

The next club in the bag is a pitching wedge (PW). This is very versatile club as we can hit up to 100 metres down to pitching of around 60 metres down to chipping of 20 metres and under. This is known as a short game club and you will learn all aspects of short game using this club.

Then we have a putter. This club is what we use to putt the ball into the hole once we have arrived on the green. You most probably know this club from playing mini golf.
